## SUMMARY

---

- Results-driven Software Developer with 6 months of experience specializing in developing and optimizing enterprise Java applications, delivering high-quality and efficient solutions within tight deadlines.

## EXPERIENCE

---

### Associate Software Engineer — Accenture

Jan 2025 – Current

*Bangalore, India*

- Developed and maintained backend components for large-scale enterprise Java applications in the healthcare domain, using Java, Spring Boot, and Spring MVC.
- Collaborated with cross-functional teams to design, implement, and test RESTful APIs, ensuring maintainability and adherence to best coding practices.
- Wrote and executed unit tests using JUnit to ensure robust application functionality and minimize defects during releases.
- Assisted in the integration and troubleshooting of backend systems, addressing performance bottlenecks and supporting consistent software delivery cycles.

## PROJECTS

---

### Hand Gesture Control | Computer Vision

- Developed a computer vision application that enables users to control PowerPoint slides using real-time hand gesture recognition, enhancing presentation interactivity without the need for physical clickers.
- Implemented gesture detection and classification algorithms with OpenCV and Python, allowing intuitive slide navigation (next, previous, start, end) through simple hand movements.

## TECHNICAL SKILLS

---

**Skills:** Java, Python, C, SQL, HTML, CSS

**Technologies/Frameworks:** Spring Boot, React JS.

**Databases:** MySQL, Oracle DB.

**Version Control:** Git, GitHub

**Miscellaneous:** Data Structure and Algorithm, Multithreading, Design Patterns, Agile and SDLC, Azure Fundamentals.

## ACHIEVEMENTS

---

- Actively participated in multiple inter-college technical events, presenting emerging technologies and securing top positions in several competitions.
- Certified in Communication, Analytical Thinking, Sustainable Design, and more through reputed platforms and companies including Samsung, Accenture, Coursera, and government bodies like APSSDC.
- Azure AZ-900 – Microsoft certified.

## EDUCATION

---

**Anantha Lakshmi Institute of Technology and Sciences, Anantapur, AP**  
*BTech – Computer Science and Engineering - CGPA – 7.58*

**2020 – 2024**  
*Andhra Pradesh*
